

SPE-GCS High School STEM Education Tutoring Program Volunteers Needed for School Year 2021-22

All schools will be conducting face-to-face classes next school year.

Interested in supporting your local high school in science, math and engineering? SPE-GCS has a program that will meet your aspirations!

LEADER: Dick Murphy (SPE-GCS member) – stancal@windstream.net - Contact him!

WHAT IS THIS? The volunteer work is done during the school day in the high school classroom following the teacher's teaching methods. Volunteer tutors are dedicated, proactive, and patient in helping explain the concepts to the students and giving them more individual attention.

FOCUS: Physics, Chemistry, Math, and Biology – mainly “on-level” classes

WHERE? Fort Bend ISD (5 high schools), Katy ISD (1 high school), Spring Branch (1 high school), Houston ISD (2 high schools), and Conroe ISD (2 high schools). You don't have to be a resident of these school districts in order to volunteer there.

REQUIREMENT? Science, Engineering or Business. Minimum B.S. Degree

COMMITMENT? Two hours per week or more for a semester; which weekday is flexible. If you are currently employed full time, we can possibly work around this requirement.

Please send the following information to Dick Murphy. Dick will arrange to meet with the volunteers to supply additional information about the program.

- Name
- Email Address
- Contact Phone Number
- Degree(s)
- Which school district are you interested in helping: Fort Bend ISD, Katy ISD, Houston ISD, Spring Branch ISD, Conroe ISD?
- Subject matter of interest: Physics, Chemistry, Math, Biology
